Impacts of the Noto Peninsula Earthquake in 2024 (Third Report)

We would like to express our deepest sympathies to all those affected by the earthquake that struck the Noto region of Ishikawa Prefecture on Monday, January 1.

We would like to inform of the following implications related to our company.

- The safety of all employees who work at Hokuriku region has been confirmed.
- Our three bases in the Hokuriku region (Tonami, Uozu and Arai) have no major damage to our buildings. Some of our facilities and products have been slightly affected, and we are proceeding with detailed confirmation and restoration work.
- Production at the factory has resumed and products are beginning to be distributed. We will proceed with restoration work for the suspended facilities, prioritizing safety, and strive to return to the production capacity that existed before the earthquake by the end of January.

About Nuvoton Technology Corporation Japan (NTCJ)

Nuvoton Technology Corporation Japan (NTCJ) joined Nuvoton Group in 2020. As a dedicated global semiconductor manufacturer, NTCJ provides technology and various products cultivated over 60 years since its establishment, and solutions that optimally combine them.
