Impacts of the Noto Peninsula Earthquake in 2024 (Final Report)

We would like to express our deepest sympathies to all those affected by the earthquake that struck the Noto region of Ishikawa Prefecture on Monday, January 1.

We would like to inform you about the impact related to our three bases in the Hokuriku region (Tonami, Uozu, and Arai) as follows.

- Although there was a slight impact on production equipment, we have proceeded with restoration work and have returned to the production capacity before the earthquake.

We greatly appreciate everyone who provided support and cooperation towards the recovery.

About Nuvoton Technology Corporation Japan (NTCJ)

Nuvoton Technology Corporation Japan (NTCJ) joined Nuvoton Group in 2020. As a dedicated global semiconductor manufacturer, NTCJ provides technology and various products cultivated over 60 years since its establishment, and solutions that optimally combine them. We value relationships with our customers and partners, and by providing added value that exceeds expectations, we are working as a global solution company that solves various issues in society, industry, and people's lives.
